

**Benefits**

- LED technology for long service life
- Cost effective solution (no electrical installation required)
- Ideal for wardrobes and kitchen cabinets

**Key Features**

- Integrated PIR sensor
- Easy to install
- PIR sensor with timer control switch (different settings available)

**Product overview**

The Dura Plus is battery light with an integrated PIR sensor. The units uses 4 x AAA Alkaline batteries.

The Integrated PIR sensor enables the unit to stay lit when movement is detected or when the cabinet door is opened. If no movement is detected the unit will switch off after 20s or 60s depending on the timer setting.

The installation is simple via the self adhesive magnetic plate. The Magnum light is then attached to the magnetic plate.

**Technical Specification**

Battery Capacity	4 x AAA Alkaline
Supply Voltage	6V
Number of LEDs	24
Light Output	40 lm
Color Temperature	Cool White (5000K)
PIR Range	120° @ 3 meters
Battery Duration	8 Months - based on 3 mins of usage per day
Finish	Aluminum
Operating Temperature	5 to 45 Degree Celsius

**Mechanical Specification**

Dimensions (mm) L, H, D	Weight (g)	IP Rating
300 x 19 x 24	Net: 81 Gross: 131	IP 20
