Key Selling Points:

- Fire rated fitting - up to 90 minutes fire rated. This fitting has been tested and proved to maintain the integrity of the surface in which it is fit. The fitting will expand if heated above a certain temperature and fill any gaps around it containing fire.
- IP65 rated fitting, suitable for use in zones 1 & 2 of the bathroom
- GU10 fitting. Runs at 240V so no external transformer or driver is required.
- Part B/C/E compliant.
- Available in a choice of 2 finishes; chrome or white.
- Choose the fitting you require in the desired finish, then select the LED lamp you'd like, choosing from warm white or cool white LED.
- The fitting is suitable for use above a shower cubical or bath.
