LIFE CAN BE SO SIMPLE

WHEN YOU DISCOVER THE NEW

ZOOM® COLLECTION

Extensive pan-European research we carried out in 2011 showed that one of the biggest single shifts in the attitudes of business professionals is that the companies they deal with have to be simple and easy to work with.

And, as you'll discover, keeping things simple is at the core of ZOOM®.

Of course, we have exciting, cutting-edge products... that's what the market expects of us. But our new ZOOM® concept aims to help you to **ACHIEVE MORE** by saving you time and hassle.

More customers, more business, more market share, more sales conversions, better projects.

ZOOM®. The everyday resource.

ALL THE HELP, SUPPORT AND ADVICE YOU COULD POSSIBLY NEED

We recognise that dealing with us should be simple and easy.
So, when you want an answer... you want it quickly.

Supporting you with samples

Extensive online resources are available

One of the most impressive and beneficial features of the new ZOOM® collection is the **SPEED** with which it provides the **ANSWERS** you need.

One call, or e-mail, to our designated 'ZOOM® support team' is all it takes to find out about availability, processing and technical information, pack sizes, decor combinations and a range of other topics.

Of course, you may wish to discuss things face-to-face. If so, we'd be happy to quickly arrange a meeting with an EGGER Account Manager or one of our stockists.

As you might expect, our newly revamped website has also been designed to give you every kind of fact and detail imaginable. It provides a broad range of assistance from technical data sheets and fabrication instructions to certifications and environmental credentials. It also makes requesting all kinds of product samples **SIMPLER** and **QUICKER** than ever.

Regardless of how or when you contact us for information, there's one thing you will always find the same – we do everything we can to get it to you fast.

KEEPING YOU UP TO DATE IN EVERY WAY

Keeping up to date with new methods of presenting to clients and staying on top of the **LATEST TRENDS** can be a complex and time-consuming process. So, we've done all the hard work for you.

VDS PROFi could save you significant time (and costs) bringing new ideas to market.

Service level expectations are increasing in every industry. And because you operate within the interiors industry, where presenting your product offer well is crucial, we have developed a range of options to give you the cutting edge.

Our state of the art 'Virtual Design Studio' (VDS) software allows you to **VISUALISE FINISHED ROOM SETS IN GREAT DETAIL**, which means you can be sure your customers will be delighted with the end result before the job is even started.

We have a range of different options, from high-tech touch screen and 'Mixed Reality interface' options to PC and iPad based alternatives.

But simply being able to make fantastic presentations is not all VDS software offers. By creating room sets with **HIGH-DEFINITION** decor scans you could **SAVE TIME AND MONEY** on prototype/set building and photography costs as well as being able to test market your new ideas.

For exclusive
access to our
trend reports see
[www.egger.com/
myegger](http://www.egger.com/myegger)

VDS can help you **SPEED UP** new product developments.

To see how room visualisation could help you, simply **SCAN THIS QR CODE** with your camera phone or webcam (using a QR Code reading app). Or go directly to the webpage: www.egger.com/video-vds-profi

To supplement our own trend forecasting efforts our international design team also commission external trend research. From the findings and observations we then offer free, **IN-DEPTH REPORTS** that tell you what's new and what's likely to be coming along soon.

As a result, you can talk to your customers knowledgeably about the very latest interior fashions, and guide them with confidence. And to help you even further, when you call our ZOOM® Hotline we can offer you **EXPERT ASSISTANCE** and suggestions on decor combinations.

Need samples for a client meeting? You can order quickly at www.egger.co.uk/shop

FOR ALL YOUR SURFACING NEEDS

Thanks to the new ZOOM® collection, budgets can be stretched further which could help you win potential new business. That's because our range of matching products allows you to identify precisely the **RIGHT PRODUCT** for the **RIGHT APPLICATION** at the **RIGHT PRICE**. Similarly, the groundbreaking advances we have recently made to the quality and realism of our products mean you can now offer a more competitive and low-maintenance alternative to solid-wood and real wood veneer products.

Because you may have needed to source different materials (such as laminates and edging) from different suppliers in the past (with the further issue of less than perfect matches), we have been working hard to provide you with a complete solution. The result of our endeavours is now a range of complementary products with matching decors and textures which, because they are all available from EGGER, ensures you get the highest quality combined with the least amount of logistics hassle.

And so you are able to meet the expectations of clients who demand ever more sophisticated finishes, we have been continually developing our award winning range of products (see pages 12–25). This means you can now offer your customers an unrivalled choice with all the reassurance of the EGGER name – a name which is synonymous with **CONSISTENT QUALITY, CONSTANT INNOVATION** and **FIRST-CLASS SUPPORT AND SERVICE**.

Use ZOOM® to **SAVE TIME** sourcing matching materials

MAKING IT EASY TO GET WHAT YOU WANT, WHEN YOU WANT IT

Call our ZOOM® Hotline for all your availability enquiries: T 0845 606 8888 *

We all know just how frustrating and even costly it can prove when you need a particular material right here and now, but phoning around stockist after stockist gets you nowhere at all.

So, you might be interested to learn that when you deal with EGGER, you'll find it's a refreshingly different story.

The new and improved ZOOM® collection has been designed to really **SIMPLIFY OUR PRODUCT AND SERVICE** offering as well as ensure you spend less time tracking down the product you need. For example, every single one of our 108 decors is held in stock as 18mm MFC at EGGER, with our network of distributors ensuring national distribution quickly and efficiently. What's more, this applies not just for

Melamine Faced Chipboard but for Laminate, and ABS Edging too. So you can be sure you will always be able to source what you need, when you need it.

So now, as well as expecting a market-leading range of products from EGGER, you can expect a truly **UNIQUE AND HASSLE-FREE SERVICE**, too.

Our **ONLINE SEARCH** tells you where you can source each decor in each product: www.egger.co.uk/wheretobuy

* From R.O.I please call: T+44 1434 613304

PRODUCT RANGE

We're confident that we have a product option for you, whether it's for commercial interiors for the home.

From MFC for the kitchen or shop changing rooms to Fire Door Cores for hotels or apartment blocks we've got it covered.

And almost all our products are **HELD IN STOCK** either by us, or by our network of national stockists, otherwise they are available to order from our UK production facility.

So, sourcing products will be **QUICK AND EASY.**

H1277 ST9 Light Lakeland Acacia in
colour and texture matched materials

EURODEKOR® MFC

Decor featured: F425 ST10 Beige Linen

What is it?

EURODEKOR® MFC (Melamine Faced Chipboard) is constructed from a decorative printed paper covering a chipboard core. This is a pre-bonded finished material, which requires no further fabrication except edging.

Where do you use it?

EURODEKOR® MFC is the ideal material for a wide variety of vertical and horizontal furniture applications such as cupboards, wardrobes, wall panelling and desking.

Why use it?

DESIGN BENEFITS – Due to recent major developments in the quality and realism of our decor reproductions, EURODEKOR® MFC allows you to offer the look and feel of veneers without the premium price.

ENVIRONMENTAL BENEFITS – It is an environmentally sustainable product which contains over 40% recycled wood, and can be recycled at the end of its life.

PROCESSING BENEFITS – The high quality chipboard core is easy to process, resulting in less chipping and a longer tool life.

⋮ All 108 decors in the ZOOM®
Collection are available **FROM**
⋮ **STOCK** as 18 mm MFC.

Sizes/Minimum Order Quantities

Availability	Length	Width	Thickness	MOQ
Available from stock	2800 mm	2070 mm	18 mm	1 board
Available to order	2800 mm	2070 mm	8 mm, 10 mm	1 pack (40 boards)
Available to order	2800 mm	2070 mm	12 mm	1 pack (50 boards)
Available to order	2800 mm	2070 mm	15 mm	1 pack (32 boards)
Available to order	2800 mm	2070 mm	16 mm	1 pack (30 boards)
Available to order	2800 mm	2070 mm	22 mm	1 pack (22 boards)
Available to order	2800 mm	2070 mm	25 mm, 28 mm	1 pack (18 boards)
Available to order	2800 mm	2070 mm	30 mm	1 pack (16 boards)
Available to order	2800 mm	2070 mm	38 mm	1 pack (12 boards)

8 mm, 10 mm and 12 mm MFC is also available to order as 2 half packs of 2 different decors.

EURODEKOR® MDF

Decor featured: H1372 ST22 Natural Aragon Oak

What is it?

EURODEKOR® MDF (Melamine Faced Medium Density Fibreboard) has exactly the same surface finish as EURODEKOR® MFC but has a fibreboard core. We can also offer 2 different grades of MDF: Furniture Grade and Deep Routersing Grade.

Where do you use it?

EURODEKOR® Furniture Grade MDF is often used as wall panelling / slatwall in commercial applications, such as retail and hospitality. EURODEKOR® Deep Routersing Grade MDF is used for the manufacturing of PVC foil wrapped doors and therefore has a decorative finish only on one side.

Why use it?

FABRICATION BENEFITS – EURODEKOR® MDF is mainly used when excellent screw holding of heavy loads is required.

DESIGN BENEFITS – EURODEKOR® MDF is suitable for curved applications and can be grooved / routed into as a design feature. The edges of EURODEKOR® MDF can also be painted, lacquered or left unfinished.

We have compiled a list of suggested decor combinations that we think work well together.

www.egger.co.uk/decorcombinations

Sizes/Minimum Order Quantities

Availability	Length	Width	Thickness	MOQ
Furniture Grade MDF				
Available to order	2650 mm	2070 mm	15 mm	1 pack (28 boards)
Available to order	2650 mm	2070 mm	18 mm	1 pack (26 boards)
Available to order	2800 mm	2070 mm	25 mm	1 pack (16 boards)
Deep Routersing MDF				
Available to order	2650 mm	2070 mm	18 mm	1 pack (26 boards)
Available to order	2800 mm	2070 mm	18 mm	1 pack (22 boards)

Half packs of EURODEKOR® MDF are also available on request subject to a surcharge.

EGGER LAMINATE

What is it?

EGGER Laminate is made up of multiple layers of paper and has a decorative surface. The laminate sheet must be fabricated (bonded) to a suitable substrate (normally chipboard or MDF).

Where do you use it?

Due to its multi-layered construction, EGGER Laminate is the perfect material for high traffic areas or where a hard wearing surface is required, such as counter tops, doors, reception desks and a whole host of other interior and shopfitting applications.

Why use it?

PERFORMANCE – Compared to veneers, laminates perform better in terms of durability and resistance to scratches.

ENVIRONMENTAL BENEFITS – Rather than using tropical veneers from the other side of the world, exotic wood reproductions in laminate are a far more sustainable option.

COMMERCIAL BENEFITS – EGGER Laminates are a more cost effective solution to veneers and are easier to replace if panels are damaged as well as the colour remaining consistent.

⋮ Can be used to **CLAD EXISTING**
 ⋮ **SURFACES** (even curves) in need
 ⋮ of a facelift.

Sizes/Minimum Order Quantities

Availability	Length	Width	Thickness	MOQ
Available from stock	3050 mm	1310 mm	0.8 mm	1 sheet
Available from stock	2150 mm	950 mm	0.8 mm	1 sheet

EGGER ABS EDGING

What is it?

Thermoplastic ABS edge banding for EURODEKOR® MFC, EURODEKOR® MDF and EUROLIGHT® which offers a sleek, yet robust decorative finish.

Where do you use it?

Different thicknesses of ABS Edging are used depending on the application.

0.4 mm ABS Edging is mainly used for carcassing, whilst 2 mm ABS is ideal for doors and desking. 0.8 mm ABS Edging is often used for both doors and carcassing.

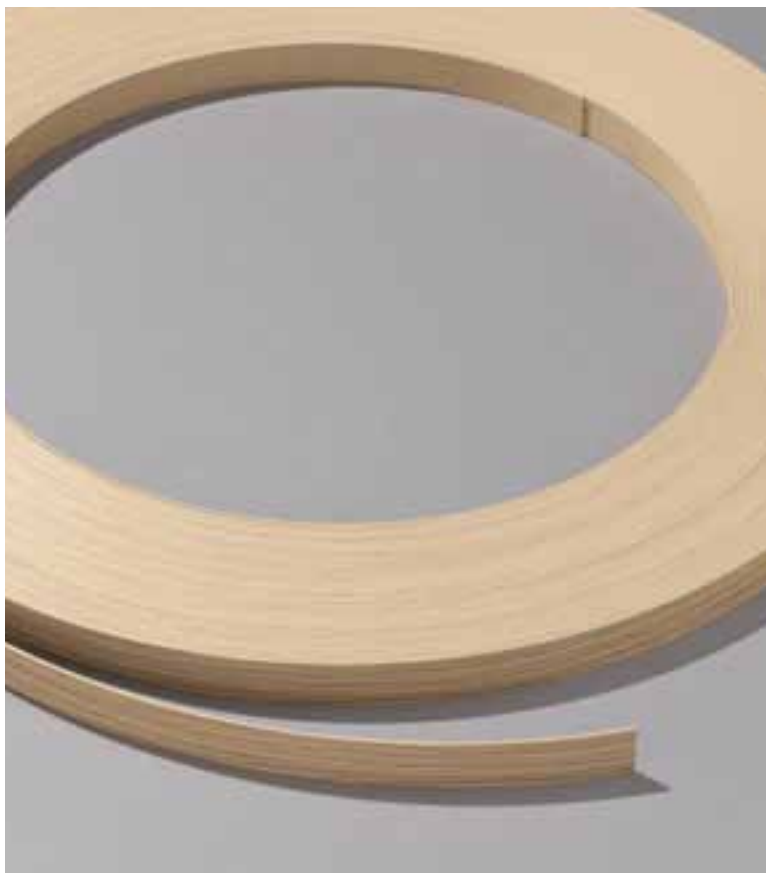

The 42 mm and 54 mm options are used to edge 38 mm and 50 mm EUROLIGHT® boards (see page 22).

Why use it?

DESIGN BENEFITS – EGGER ABS Edging is colour and texture matched to our boards ensuring a consistent appearance.

FABRICATION BENEFITS – Can be easily fabricated either by hand or by using an edge banding machine using standard hot-melt type adhesives.

ENVIRONMENTAL BENEFITS – Unlike PVC Edging, ABS Edging is easy to dispose of at the end of its product lifecycle as it can be burnt without releasing harmful toxics.

: **SAVE TIME** and effort by sourcing
 : both boards and edging from the
 : same supplier.

Sizes/Minimum Order Quantities

Available from stock	25 linear meters	54 mm	2 mm	1 roll

EUROLIGHT® LIGHTWEIGHT BOARDS

Decor featured: H1372 ST22 Natural Aragon Oak

What is it?

EUROLIGHT® is made from extremely strong 8mm high density chipboard top and bottom surface layers, combined with a light, yet robust recycled cardboard honeycomb core. It is available either with a decorative surface, raw (for bonding veneer or laminates), or a painting grade option (for client specific uni colours).

Where do you use it?

A chunky look, combined with low weight and high strength means that EUROLIGHT® is perfectly suited to a wide range of sectors including retail, business, leisure, education, hospitality and healthcare. Within these areas EUROLIGHT® offers a wide range of possible applications such as cladding carcassing, table tops/desking, shelving, sliding doors, pedestals, internal doors and furniture.

Why use it?

DESIGN BENEFITS – Thicker materials help to convey contemporary design and high quality. LED Lighting and technology, such as iPad docking stations can easily be integrated into the hollow core.

ENVIRONMENTAL BENEFITS – EUROLIGHT® is a more effective use of wood and can be recycled at the end of its product lifecycle.

HEALTH & SAFETY BENEFITS – The trend for thicker materials can often result in very heavy components and makes complying with manual handling guidelines difficult. EUROLIGHT® solves this issue as it is up to 60% lighter than its equivalent thickness in chipboard.

: All the decors featured on pages 30–72
 : are available in Laminate (which could
 : be bonded to EUROLIGHT® Raw boards).
 : For **AVAILABILITY** of 50 mm EUROLIGHT®

EGGER FD30 & FD60 FIRE DOOR CORES

What is it?

Highly engineered chipboard fire door cores. Our 44 mm FD30 cores are fire resistance for a minimum of 30 minutes and our 54 mm FD60 cores are fire resistance for a minimum of 1 hour, when fitted with the right combination of door configuration, glazing panels and intumescent seals.

Where do you use it?

EGGER Fire Door Cores are suitable for a wide range of domestic and commercial applications, such as housing, education and healthcare, hotel and leisure, commercial offices and retail environments.

Why use it?

HIGH PERFORMANCE – EGGER Fire Door Cores are tested by Chiltern International to BS476 Part 22 and are third party accredited by BM Trada under

the Q-Mark accreditation scheme. They also meet the highest level of durability classification – Severe Duty, in accordance with DD171 and BS EN 1192.

LIGHTER CORES – Using the very latest chipboard production technology we have been able to manufacture a lighter, more technically advanced core. This brings health and safety benefits as the cores are easier to handle and install, as well as logistics benefits as you can make better use of transport capacities.

FINER SURFACE – The fine surface of EGGER Fire Door Cores can be painted without the need for further preparation saving you time and money. This high quality surface is also beneficial when laminating and veneering.

EGGER FD30 Fire Door Core

EGGER FD60 Fire Door Core

EGGER FD60 Fire Door Cores have a unique composition which is specially designed not only for 1 hour fire protection but also for **SUPERIOR SOUND QUALITIES** (up to 36dB).

TEXTURES

Texture is no longer a secondary consideration after colour choice. It is now used to give decors more **DEPTH** and add **REALISM** to reproductions, bringing them closer to real wood, veneer and the real material, whether that's a stone or leather product.

With our new collection we are introducing several new textures focused on making the surfaces more tactile and ultimately more natural, which means that you can create **HIGHER VALUE** projects and ranges.

Texture featured: ST18 Waveline

Decor featured:
F428 Brown Leather in ST10 Authentic

TEXTURE INNOVATION

With ZOOM® every decor uses the most appropriate surface texture, ensuring that our decorative materials both look and feel like the real thing.

ST10 Authentic

A brand new highly authentic and realistic surface for solid wood / material reproductions.

ST18 Waveline

This horizontal texture offers new levels of depth for melamine faced boards. It has a modern appearance and is reminiscent of solid wood and/or MDF which has been milled out and then painted or lacquered (ST18 Melamine Faced Boards –on one side only ST2 in matching decor on reverse).

SM Semi Matt

Surfaces don't come any smoother. Used with white to create a paint-like, untextured finish.

ST22 Matex

Has a deep brushed finish with a matt-gloss linear grain. This offers a realistic surface for linear woodgrain decors, giving them more naturalness and depth.

ST9 Perfect Matt

Used with uni colours and woodgrains offering a soft, natural feel. This texture supports the trend for matt surfaces.

ST11 Natural Pore

This irregular matt-gloss wood pore surface offers a very natural appearance. Used mainly on classic oak reproductions.

ST2 Diamond

Has a grainy, mini-pearl texture, with a medium gloss level. This surface is robust, very durable and is used with uni colours and pearlescent decors.

ST30 Gloss

A smooth surface with high gloss level, especially well suited to uni colours and premium woodgrain decors.

ST15 Office

A smooth, flat surface finish with low gloss levels and low maintenance. Combines with intensive uni colours and a wide variety of woodgrains.

DECORS

The way interior and furniture designers increasingly think about specifying colours has changed somewhat over recent years.

It is now much less likely that a particular type of species, such as Walnut, is the real requirement. It is more a particular type of look, or mood that is being sought after.

So, to make **LIFE SIMPLER** for you we have organised our decors into what we call '**COLOUR WORLDS**'.

Because contemporary design increasingly requires the combination of a number of different colours much of our new decor work over the past few years has been developed with combinations in mind.

As some of the decors featured have an expressive character, where it may be difficult to appreciate the grain or pattern, we have provided an additional decor scan (size 900 × 600 mm) to assist.

You could also view scans on our website www.egger.co.uk/decors. Or, to see how the decor would look as part of a room set check out www.egger.co.uk/vds

With our Virtual Design Studio (VDS) software you can visualise your ideas and those of your customers with ease. Place EGGER decors into a wide variety of available room sets or alternatively upload your own images. Actively involve your customers in the design process and offer a consultative service: www.egger.co.uk/vds

NEED A SAMPLE? TRY OUR SAMPLE SERVICE

As easy as online shopping: visit the new EGGER sample shop and search by texture, colour tone or colour world to find what you need in an instant. You can also request brochures, find decor combination suggestions and check your order history. Very quickly you'll receive A4 samples that can really convince your customers - just try it out.
